

INTEGRABLE DAY IN LOUGHBOROUGH

A half-day workshop on geometric aspects of integrability will be held at Loughborough University on Friday, November 26, 2021 from 2pm in room EHB.0.02. The speakers are:

Sonja Hohloch (Antwerp): *Geometry and dynamics of semitoric systems*

Yassir Dinar (SQU, Muscat): *Algebraic Frobenius manifolds and classical W-algebras*

Johannes Hofscheier (Nottingham): *Spherical varieties and tropical geometry*

Alexey Bolsinov (Loughborough): *Frobenius pencils and compatible Poisson structures*

This meeting is a part of collaborative workshop series on Classical and Quantum Integrability, sponsored by the London Mathematical Society, involving Durham, Edinburgh, Glasgow, Leeds, Loughborough, Northumbria and York Universities: <https://integrable-systems.leeds.ac.uk/cqi-workshop-2021-22/>

The meeting will be in hybrid format with the first two talks delivered online. The interested people should register at <https://forms.office.com/r/YH8dmS7iFk>

Funds may be available to support the attendance of UK research students. Enquiries should be addressed to the organisers: V.Novikov@lboro.ac.uk, A.P.Veselov@lboro.ac.uk.
